The Yiddish violinist, Morris Golden, whose funnyisms and imitations of birds and cows upon the strings of his violin have made everybody laugh, has some surprises in store for tonight. DR. ARTHUR H. SMITH TALKS ON CHINESE

"Experiences in the Far East," as set forth by Dr. Arthur H. Smith, who has lived for more than forty years in China, was a most interesting disourse at Central Union church

The doctor has thoughts and idease egarding Chinese that are new to the people of this part of the world, not-withstanding the large numbers of Chi-

gese that are met with here daily.

"Of course I like the Chinese," he said, in answer to a question. "I am devoted to the people of China; everybody is who knows them."

Questioned about the foot-binding of

the Chinese women, he said:
"I have not seen anything about a
governmental decree that there shall
be no more fost-binding. I hardly
think it probable, however, that such decree has been issued, in a mandaa decree has been issued, in a manua-tory way. The women of China are very independent. They would not take kindly to a law which tried to set the fushions for them.

"Chinese have their standards of morality, which, in the main, do not differ so much from American standards. They believe in, and practise honesty, loyalty, obedience to author-ity, reverence for ancestors and for carning, patience, industry and perse-

Responsibility. "One of their characteristics is a feeling of responsibility. In China, somebody is responsible for everything that happens. If any great calamity had come upon the people, the easperos took himself to the Temple of Heaven and there confessed his sins

and begged forgiveness." Dr. Smith spoke of the wide tolera-tion shown by the churches here one for the other. Honolulu he thinks is ort of melting pot for creeds as well
